PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION:

The District has a 20 year replacement schedule for fire apparatus, consisting of 15 years of first line service and 5 years of reserve service. The acquisition of twenty-four fire engines would be twice the normal replacement quantity. The District's normal replacement schedule is being accelerated to take advantage of a \$240,000 cost savings. The fire engines and quint will have enclosed cabs, improved fire fighter safety features, more cost effective components to reduce annual operating costs, and higher efficiency, lower emission diesel engines.

Implementation of Strategic Plan Goals

This purchase supports the County's Strategic Goal #2 for Workforce Excellence, by enhancing the quality and productivity of the District's workforce.

FISCAL IMPACT/FINANCING:

The total estimated cost of the fire engines and quint is approximately \$8,795,000. The District's 2006-07 budget includes sufficient funding for the purchase of the fire engines and quint.

Maintenance costs will be funded within the District's existing budget. There is no impact on net County cost.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS:

The nature of response requirements, fire fighting and automotive technology, and accepted National Fire Protection Agency requirements have changed dramatically over the last 20-year period and the new apparatus will be significantly more efficient and effective than the apparatus they are replacing.

On October 16, 2001, your Board adopted a policy whereby departments must obtain Board approval to purchase or finance equipment with a unit cost of \$250,000 or greater prior to submitting their requisitions to the Purchasing Agent.

CONTRACTING PROCESS:

This is a commodity purchase under the statutory authority of the Purchasing Agent. The purchase will be requisitioned through, and accomplished by; the Purchasing Agent in accordance with the County's Purchasing Policies and Procedures, established by the Internal Services Department.

IMPACT ON CURRENT SERVICES (OR PROJECTS):

The fire engines and quint will greatly enhance the District's ability to protect lives, the environment, and property in a safer, more efficient and cost effective manner.

ENVIRONMENTAL DOCUMENTATION:

The acquisition of the fire engines and a quint is exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15061 (b)(3) of the CEQA Guidelines because it can be seen with certainty that this acquisition will not have a significant effect on the environment.

CONCLUSION:

Upon approval by the Board of Supervisors, please instruct the Executive Officer to return adopted copies of this letter to:
